

BEST START BIRTH CENTER

NEW MASK GUIDELINES!

HELLO BEST START FAMILIES! As of June 15, 2021, the California mask mandate has been lifted for those who are fully vaccinated. Per CDC guidelines, masks are still required for **all** unvaccinated or vaccinated individuals and children over the age of two, while **inside healthcare facilities**. Best Start is committed to providing safe healthcare for all our families, therefore we will continue to adhere to strict mask wearing requirements for **all individuals, regardless of vaccine status,** and over the age of two while inside the birth center.

EXCITING NEWS!

We are excited to announce that children are now welcomed to join us during visits! To continue keeping everyone healthy and safe, we kindly ask that everyone mind the following:

- Please do not bring children exhibiting signs of illness such as: fever, vomiting, diarrhea, cough, etc.
- Wash or sanitize hands, including the hands of all children when arriving to the birth center.
- Forehead temperature checks will be done upon arrival.

Thank you for your support and
understanding!
